

TESTING

Overall Focus:

Our goal is to get people to know their HIV status.

Four Focus Areas:

- How can we increase routine testing in the greater Sacramento area?
- How can we increase testing among at risk populations effectively and efficiently?
- How can we get testing in emergency rooms, community clinics and by all providers when an STD is diagnosed (or tested for)?
- How can we best convey the need to test in specific communities?

Tasks for meeting #2:

1. As a group, develop ***specific*** strategies for getting people to know their HIV status.
2. With strategies defined, we agree to make contacts and secure commitments from the different community venues in which testing is done.

Who needs to attend meeting #2:

Given this focus, who should be at the upcoming meetings?

- Community Service Organizations
- AIDS Service Organizations
- Sacramento County
- Hospitals and Clinics
- Jail
- Recovery Centers
- Media

Send your suggestions to Jon and invite the person yourself.
